Code Commits (my feature started from M2, with Mark and Haiwei)

f2ed2e1 Timesheet
039bea8 Merge branch 'Upload-Logo-and-Banner' into 'main'
f244550 Logo And Banner Prompt
9817dbe timesheets
02db580 added s2 submission
e2f2929 changed jdl file
cc550d5 Merge branch 'main' of git.cs.bham.ac.uk:team-projects-2023-24/team02
2cc5f95 added jdl file
fb1a273 Merge branch 'main' of git.cs.bham.ac.uk:team-projects-2023-24/team02
b949177 tech report
bcd9bff Merge branch 'main' of git.cs.bham.ac.uk:team-projects-2023-24/team02
fle9f4d added timesheet
fb4e23e Added mockup features
5a3c46e Merge branch 'main' of git.cs.bham.ac.uk:team-projects-2023-24/team02
3816e0d added ranking.txt
cae864f Merge branch 'main' of git.cs.bham.ac.uk:team-projects-2023-24/team02
110a4f3 adding m1 persona
293c560 Merge branch 'main' of git.cs.bham.ac.uk:team-projects-2023-24/team02
1609784 Added s1 submission
3edb651 Merge branch 'main' of git.cs.bham.ac.uk:team-projects-2023-24/team02
ab9e9ef Add timesheet
e1b4645 Add name to read me

Demo Prep

[Introduction](#)

My feature that I have developed is the team creation function, essentially this allows users to make a team where they can choose a team *name*, and a *description* that resonates with the team, and also, choose privacy options such as *Public*, *Private* and *Closed*. This gives the users a sense of control in terms of how they would like their team to operate and also control over who has access to the team. Users are also allowed to upload their very own logo and banner that they would want for the team, however the logo and banner have style attribute limitations of 100 pixels.

[Front-end](#)

The frontend is very responsive to user inputs, the required fields are shown to the users through the asterisks next to the field name. If a user was to click on this field, and was not to enter anything, a small message is displayed stating that the specific field is required. A conditional create button is also in place making sure that the user can not go ahead to create teams if the required fields are not filled. This page also offers the optional choice of users uploading a logo and banner for their team.

S3 Submission

Backend

Once a team is created, assuming all the required fields have been filled, the backend focuses on storing the data of these teams. These teams are stored as objects within a database where the fields in the database correspond to the fields of the team creation page such as name, description, etc. The backend also helps ensure that when making a team you cannot choose the same name as an existing team.

Accessibility

In terms of accessibility, the team creation page can also be navigated through by only using a keyboard, when the 'Tab' button is clicked the cursor directly moves to the next field, and the 'Enter' button will allow team creation, assuming all required fields are filled.
