Website Mockup
This is a website mockup for the view player info feature of our web application, the first page is the landing page when trying to see players, it contains the top players, you are also able to search for specific players and view players you already follow.

The second page is after clicking on a specific player you are able to view the player info.

User Persona
This is Alex Scott an eSport Coach & Analyst who would use the website to find and recruit players for his team.

BIOGRAPHY

Alex is an eSport Coach and Analyst, with just over 2 years of experience in the field. He has been interested in finding a better way to observe and compare his players' performances at tournaments. He is trying to find patterns in performances to see what his players are good at and where they lack, in order to help them improve.

changes for Teamproject

Modified by Madasar Shah for Team Project

- `.yo-rc.json` contains the setting used to generate this app (see below)

- `pom.xml` line 87 changed to `<jib-maven-plugin.architecture>arm64</jib-maven-plugin.architecture>` this depends on the arch you will deploy the docker image to n.b. use `amd64` for Intel or AMD virtual machines

- `src/main/webapp/app/layouts/footer/footer.component.html` modified to add the text `You are accessing an experimental web`
